

MILLS ARE OPENING

sas City. It is thought death was accidental.

CAR TAKES A HEADER.
Milwaukee, Wis., March 1.—An electric car on the South Tenth avenue line, while descending a high grade on Pennsylvania avenue this morning, capsized, rolling over and over. There were eighteen passengers in the car, and strange to relate none of them were seriously injured; several of them were quite badly bruised or burned, however.

E. H. Cook of the circulating department of the Milwaukee Sentinel, is the worst sufferer. It is thought his skull is fractured.

C. J. Lapsley of South Milwaukee had his clothing burned from his body and was badly cut about the head. Cook's injuries are not so serious as at first supposed.

THE FIRE FIEND'S WORK.
St. Louis, Mo., March 1.—A special to the Post-Dispatch from Casey, Ill., says: The first fire that has occurred here in ten years started at 2:15 o'clock this morning in the two-story brick block occupied by the following business firms: Fagua & Sons bank; B. Lee company; E. L. Shinkle, D. C. Sturdevant, R. A. Lee, M. G. Cochenour, M. Sanford & Sons, Hancock & Clark, and others. Property valued at \$200,000 was destroyed.

A strong wind was blowing at the time. The flames soon spread to the two adjoining blocks, and the entire business portion of this town was in danger.

At 3 a. m. the mayor made an effort to communicate with Terre Haute, Ind., to ask for assistance, but the telegraph companies could not raise their Terre Haute office. The town was at the mercy of the flames, being without a fire engine.

The Casey bank building is wrecked. The vault, however, is intact. The post-office is badly damaged, but no mail destroyed. The block in which the fire

After the fire had raged for an hour, a fire engine owned by the Peoria, Decatur & Evansville railway was thought of. The railroad people placed it at the mayor's services, and such efficient work was done that the flames were got under control at 4 o'clock.

Anderson, Ind., March 1.—Fire broke out at 4 o'clock this morning in the works of the American Plate Glass company at Alexandria and it was not controlled

until after 7 o'clock. The loss is estimated at \$40,000, fully insured. The polishing and grinding rooms were destroyed and the casting hall was damaged. Four hundred and eighty men are employed in the works. The damage can be repaired within sixty days.

Elwood, Ind., March 1.—The American Plate Glass factory at Alexandria was burned today. Loss \$200,000.

NO MORE GUILLENOT EGGS

Government is Afraid the Foolish Bird Will Become Extinct.

San Francisco, Cal., March 1.—At the solicitation of the committee on bird protection of the American Ornithologists' union, of which Professor Everett M. Loomis of the California Academy of Sciences is a member, the government officials have set the seal of their displeasure upon the importing of sea bird's eggs from the Faralones. The light-house board at Washington which has

The mandate of the lighthouse board will bring to a close a unique industry of this city. The eggs of the murre, or foolish guillemot, have been shipped to the markets of the city in great quantities ever since 1849, at which date they were almost the only fresh eggs to be had, bringing over \$1 a dozen. The birds were present in the breeding season, from May until August, on the islands in such countless thousands that

Although persistently robbed, their numbers seemed to show no appreciable diminution. In recent years, however, naturalists have noticed the effect of the annual persecution of the vast colonies, and several had fears that they might become extinct. As a result of the investigation the prohibitory measure has been enacted.

As high as 20,000 dozen of eggs were annually brought to market by the Greek and Italian fishermen. They are twice

the size of an ordinary hen's egg, for which they are said to be an excellent substitute, and they sold at retail from 15 to 25 cents a dozen.

During the past four or five seasons the Greeks have been driven off, and the egg industry has been carried on by the lighthouse keeper on the Farallones.

NOBODY TO ACCUSE HIM

Rev. Mr. Cochran's Congregation Don't Believe in Jonah, Neither.

Madison, Wis., March 1.—A rather sensational incident occurred in the Presbyterian church yesterday. Rev. W. W.

pany, employing 500 hands, resumed operations today after a long period of curtailment.

The Kent Woolen company of Centerville, and a number of smaller plants, are making preparations to start their machinery.

New Haven, Conn., March 1.—The L. Candee company, manufacturers of rubber footwear, today resumed operations in their plant, after an idleness of about a month. By Wednesday the full complement of 1,200 hands will probably be at work.

Parkesburg, W. Va., March 1.—The

William J. Stone was today appointed receiver of the Mullanphy Savings bank, which was closed by the state examiner on Saturday. He immediately took possession and will issue a statement as soon as he can get the bank's affairs into shape.

He qualified, giving a bond of \$1,000,000 with the St. Louis Trust company as surety. The first step of the receiver will be to have the board of directors deed over to him all property owned outside of the jurisdiction of the court. There

recover. He is Dan McFarlane, a young railroader of Buffalo, who tried to commit suicide Saturday morning. Yesterday afternoon an X ray photograph was made of his skull showing the location of the ball clearly. This was done by Drs. Haskins and Meagley. This morning Police Surgeons Howe and Woods removed the bullet at the hospital room of the police station. The hole in the skull made by the ball was enlarged by the use of bone forceps, a probe inserted

New Orleans, March 1.—Rex arrives on the government lighthouse tender Joseph Henry, accompanied by a large fleet of boats. The pageant of entry was a gorgeous one and besides about 1,500 state troops there were two companies of marines and two companies of blue jackets from the Maine and Texas. Captain Glass and Crownshield were decorated with dual honor and rode in carriage with the king's suite. The French and American warships fired salutes and the fleet in the harbor blew whistles and made elaborate displays.

the last fiscal year, which sums Mrs. Stanford paid under protest. The personal property in question consisted of stocks and bonds of foreign corporations not doing business in this state, some of the certificates of which were on tax day in Mrs. Stanford's possession in San Francisco, while they were here neither on the day of Senator Stanford's death nor on tax day before or since, but which are held outside the estate's collateral security. Superior Judge Hubbard decided against Mrs. Stanford on every point in her complaint and dismissed the action on the grounds of the

TOO BAD ABOUT KING OSCAR
Mighty Little Jonathan Cares, Whether It Does or Doesn't.

London, March 1.—The officials of the foreign office here state that the report that King Oscar of Sweden and Norway has asked to be relieved of the duty of nominating a fifth arbitrator in the settlement of the disputed boundary line between British Guiana and Venezuela is wholly unfounded.

• **LEAVE IT OR TAKE IT**

ling the business for the convention without securing the chairman's consent. This suggestion many of the roads say they cannot champion as they had

consignment seized this afternoon was about to be removed from the war house to the Chinese store when the officials took possession of the drug. Customs officials state that a system acting as nominal importer to aid Chinese firms has been practiced for the last ten years. The customs officials say it is improbable that either Davidson Fong Tai will be prosecuted for the infringement of the law. It is thought that the seizure by the government

the materials obtainable, but it is believed that it does not attempt to state the location of the true divisions, line between Venezuela and British Guiana, which was the original object of the question but is a synoptical statement of the ground gone over by the commission to the time when it was about to undertake to pass upon that important question. It has not yet been decided whether or not the report will be made public but it seems probable that in the end it will be communicated to congress, not as a report but as a summary.

THE NEW PROJECT COMES IN TO OPERATION IN OCTOBER.
